AI VISIBILITY REPORT

Finnplay — B2B platform (demo)

14 Sept 2026 – 13 Oct 2026 · 560 AI answers · engines: ChatGPT, Gemini, Perplexity, Claude

Simulated data

Simulated data. This report was made from demo answers. It must not be presented as real results.

Finnplay was mentioned in **50.9%** of AI answers, ranking **#4 of 4** tracked brands. The most visible competitor, **EveryMatrix**, appeared in **79.6%**. When Finnplay was mentioned, it was on average at position **#3.2**, with a tone of **67/100**.

Visibility	Average position	Sentiment	Share of voice
50.9%	**#3.2**	**67/100**	**18.7%**
baseline	baseline	baseline	baseline

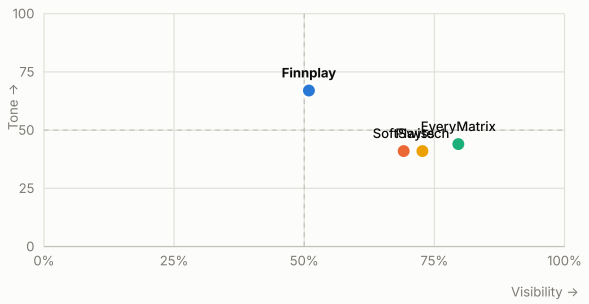

How the client compares

This is the starting point (baseline).

#	Brand	Visibility	Position	Sentiment	Share of voice
1	EveryMatrix	79.6%	#2.1	44 /100	29.2%
2	Playtech	72.7%	#2.5	41 /100	26.7%
3	SoftSwiss	69.1%	#2.4	41 /100	25.4%
4	**Finnplay**	50.9%	#3.2	67 /100	18.7%

SIMULATED

Visibility vs sentiment

By AI engine

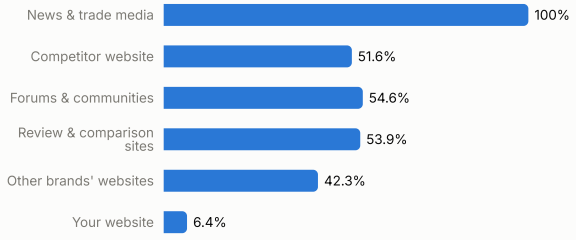

Finnplay's visibility on each engine

ChatGPT	45.7%		Leader: EveryMatrix 82.1%
Gemini	59.3%		Leader: EveryMatrix 70.7%
Perplexity	45%		Leader: EveryMatrix 84.3%
Claude	53.6%		Leader: EveryMatrix 81.4%

SIMULATED DATA

The sources behind the gap

Websites the AI cited most, and how often Finnplay appears in those same answers.

Website	Cited in	With Finnplay
igamingbusiness.com News & trade media	67.1%	51%
sigma.world News & trade media	62.3%	53%
gamingintelligence.com News & trade media	62%	46%
sbcnews.co.uk News & trade media	61.3%	48%
egr.global News & trade media	59.3%	49%
linkedin.com Forums & communities	54.6%	53%
g2.com Review & comparison sites	53.9%	51%
next.io News & trade media	51.8%	48%
playtech.com Competitor website	23.6%	49%
softswiss.com Competitor website	22%	46%

Recommended actions

Prioritised, each with the evidence behind it. These are suggestions; no result is guaranteed.

1. medium **Playtech has pages that AI quotes — create your own equivalent**

AI answers cite playtech.com 132 times; your own site is cited in 36 answers.

Next step: Open the competitor pages below and note which questions they answer.

2. medium **SoftSwiss has pages that AI quotes — create your own equivalent**

AI answers cite softswiss.com 123 times; your own site is cited in 36 answers.

Next step: Open the competitor pages below and note which questions they answer.

3. medium **EveryMatrix has pages that AI quotes — create your own equivalent**

AI answers cite everymatrix.com 114 times; your own site is cited in 36 answers.

Next step: Open the competitor pages below and note which questions they answer.

4. medium **Low visibility in global (non-country) questions**

In Global, EveryMatrix appears in 79.5% of answers; you appear in 47.8%.

Next step: Check the Sources page filtered to this country to see which local sites AI relies on.

5. medium **Low visibility in United Kingdom**

In United Kingdom, EveryMatrix appears in 82.1% of answers; you appear in 51.8%.

Next step: Check the Sources page filtered to this country to see which local sites AI relies on.

6. medium **Start tracking Slotegrator**

Slotegrator appears in 67.5% of answers but is not on your competitor list.

Next step: Add it on the Competitors page (one click) so it is counted in share of voice.

7. medium **Low visibility in Finland**

In Finland, EveryMatrix appears in 78.6% of answers; you appear in 51.8%.

Next step: Check the Sources page filtered to this country to see which local sites AI relies on.

8. low **Start tracking BetConstruct**

BetConstruct appears in 48% of answers but is not on your competitor list.

Next step: Add it on the Competitors page (one click) so it is counted in share of voice.

How this was measured

- SIMULATED: answers were generated by a demo engine, not by real AI services.
- API answers come from the same AI models as the consumer apps, but can differ from what one person sees in the app (apps add personalisation and their own instructions).
- Visibility = share of answers that mention the brand. Position = order in which brands are first named (1 = first). Sentiment = tone of the sentences that mention the brand, scored by a word list (0 negative, 100 positive) — a rough guide, not a perfect reading.
- Not covered: Microsoft Copilot, Google AI Mode and Google AI Overviews, because they have no official API.
